

About

Enviroof is a premium composite shake roofing, crafted to capture the timeless beauty of natural wood shakes while delivering unmatched performance.

Made from a refined blend of high-quality polymers and advanced composites, Enviroof offers the warmth and texture of real wood—without the challenges of warping, rotting, or heavy maintenance.

Engineered for strength, weather resistance, and long-lasting durability, it brings together aesthetics and reliability, making it the perfect choice for modern roofing solutions.

Address

FACTORY & OFFICE
Jalan Kalimas Barat no 57A
Surabaya, Indonesia
